

Airport Spotlight

Perry Municipal Airport Perry, OK

4

Employees

Based Businesses: Two Aerial Application Businesses

Primary Customer/User Base: Agricultural Aerial Applicators, Military Training, OSU Training and General Aviation Users

Community Impact: In addition to providing services for both local and transient general aviation pilots, the airport serves as a vital hub for agricultural aerial applicators that provide services to multiple counties.

Needed Capital Projects: Upgraded airfield lighting and a runway overlay.

Originally Noble Army Airfield, Perry Municipal has been in service since 1942 when it served as a primary flight training facility as well as an auxiliary field to what is now Vance AFB. This airport continues to be frequented by military training aircraft
